Spherical Manifold Simulation Algorithms 102

(this is not a puzzle)

> ⊗ MBTA: #GreenLine: Shuttle buses replace Green Line service between Medford/Tufts and Lechmere due to unusual reptile activity at Ball Square Station. We suggest maybe going for a walk instead.

Sunday, August 27

Prof. Lucy Ball

Welcome to Spherical Manifold Simulation Algorithms 102!

You are not the first study group to benefit from my mentoring. I look forward to having you in my class.

But, before we begin our lesson today, we have got to deal with this monstrous python interrupting us.

We have four trajectories of analysis on how to scale the problem back a bit:

Assembly Line	
House Calls	
Stargazing	
A Walk in the Park	

A Walk in the Park uses location information, but does not require going indoors. But please support our local businesses if you can. Most free outdoor seating will be found in Nathan Tufts Park.

Once you have comprehensible results, we'll collaborate, with:

Indigestion
